

Clovinol®

Proprietary and clean clove bud extract with a unique bioactive composition. Clinically substantiated to promote healthy metabolism.

Clinically substantiated for healthy metabolism

Unique mechanism of action

Clean label and water-soluble formulation

Responsibly sourced with full traceability

Low dosage of 250 mg per day

Clovinol® is a unique clove extract made from delicate buds of *Syzygium aromaticum* that are standardized to deliver potent bioactives known as polyphenols. Produced using hydroethanolic extraction methods, Clovinol® delivers a breakthrough water-soluble powder rich in polyphenols. With three compelling clinical studies behind it, Clovinol® boasts remarkable capabilities to regulate metabolism, to balance cellular homeostasis, and to alleviate alcohol detoxification by reducing acetaldehyde levels by 3x and by elevating glutathione levels. Clovinol® also offers robust blood glucose and lipid profile support to manage these levels within the normal range. Discover the power of restorative liver health, lipid/glucose support, and metabolic wellness with Clovinol®.

CLINICALLY SUBSTANTIATED HEALTH OUTCOMES

- Elevates glutathione enzyme levels
- Helps to modulate acetaldehyde levels in the body
- Supports blood glucose and lipids levels within the normal range
- Helps normal cellular functions

APPLICATIONS

Tablets and capsules

Beverages and powders

Gummies and chews
